From the Director's Desk

Dear Parents,

Namaste!

As a school, we feel it is our utmost responsibility to reach out to our students and their families at this time of uncertainty and anxiety and giving them the comfort that we stand by them.

While we adhere to all the government guidelines of restricted movement and social distancing, we are trying to ensure we are ready to welcome our learners into the new academic year as and when the government deems it fit to start.

Understanding the operational difficulties that some of our parents are facing, we have extended the last date for payment of fees to May 31st so they are relieved on this end and can focus on other important aspects.

We have also changed the schedule for uniform and books distribution and collection to a later date which will be informed to you.

Please feel free to reach out to us if there are any questions, remember we are just an email away from you and we promise to respond promptly.

Stay safe and take care of yourself and your family.

Cheers,
Nageshwar PB
Director,
TSUS – Chennai

Message from Principal

Namaste!

The disturbing and unpleasant scenario across the world certainly calls for safety and precautionary measures from all of us. But, yes the untiring contribution of medical fraternity and the unity among mankind will help us tide this grim situation.

Since the academic session is commencing on June 2020, and by then things should get back to normal, so there is nothing that the students will actually miss out. We shall go ahead with the parents orientation during last week of May 2020 in which we shall introduce the parents to the teachers, share academic calendar, and functioning of the school, etc.

The school would primarily focus on getting the students to be independent learners. And, it is important that we maximise all the opportunities that we get. It is appreciable if this period of social distancing could be utilised by the parents to get the children into daily routine of waking up early, maintaining personal hygiene, spending some time for morning prayers, eating healthy without wasting, reading books of their choice, improving handwriting, art / craft work, some indoor games and sleeping early at night.

If children inculcate basic self routine and self discipline, they are able to manage their time better. It then becomes easier for them to juggle multiple tasks and that contributes to their personality.

Wishing all of you safe and healthy stay.

Best Wishes,
Mangala Madhavan
Principal,
TSUS – Chennai
